PVJ POWER NEWSLETTER

EXPORT SNAPSHOT

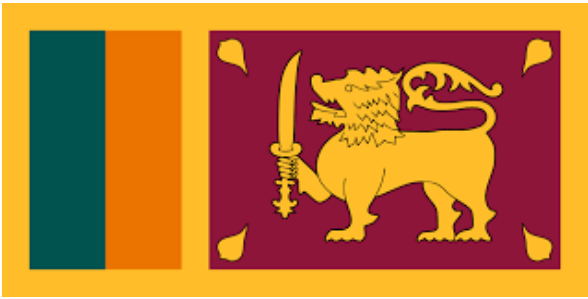

UK | Yorkshire – PVJ Power energizes the UK with **4×5 MVA state-of-the-art transformers** for a **high-capacity battery charging plant**, driving the future of sustainable mobility.

Iraq | Basra Hydrocarbon Hub – Delivering **2×2.5 MVA** and **2×800 kVA** transformers to **fuel energy security** at a critical **hydrocarbon processing facility**.

Uzbekistan | Tashkent Water Project – Powering infrastructure with **2×4 MVA**, **4×2.5 MVA**, and **2×2 MVA** transformers, enabling **clean water access** for the local citizens.

Sri Lanka | Steel Mill Powerhouse – Supplying a **2 MVA** high-efficiency transformer to turbocharge production capacity for a **leading** steel manufacturing plant.

Zambia | Grid Reinforcement Drive –
Deploying **27 high-reliability transformers** from **50 kVA to 3000 kVA**, strengthening Zambia’s **national transmission backbone**.

Rwanda | Expanding Horizons –
Commissioning **24 advanced distribution transformers** ranging from **25 kVA to 500 kVA**, empowering **urban and rural electrification**.

Kenya | Powering Pharmaceuticals –
Delivering **5 MVA and 2.5 MVA precision transformers** to support **pharmaceutical manufacturing excellence**.

Maldives | Solar Energy Revolution –
Supplying **1×3000 kVA and 4×800 kVA CSS** units to accelerate a **flagship solar power project**, shaping the island’s **renewable future**.
